

FIRM PROFILE

Aquatectonic Architects is the in-house aquatic design department of Lothrop Associates LLP Architects, and supported with the staff and resources of a full-service architecture and interior design firm founded in 1967. The firm has more than five decades of experience designing pools, water features and spas for public and community, education, hospitality, community center, club and residential properties.

Aquatectonic offers clients a wide range of services from Aquatic Facility Planning and Pool Filtration Design to Construction Administration Services, and Department of Health Filing and Inspection.

Designs include new pools, pool renovations and specialty features like fountains and saunas. The firm is also very experienced and has worked with a variety of pool materials including stainless steel, shotcrete and infinity pools coupled with pool equipment designs with advanced electronics, automation and alternate disinfection systems such as salt, ultraviolet light, ozone, etc..

LEADERSHIP

William Simmons, AIA | Aquatics Partner | Project Director

Bill Simmons, a Registered Architect with over 35 years of experience, oversees Aquatectonic Architects. With his extensive experience and industry knowledge of aquatic planning and filtration design, he leads our design team in every aspect of a project. Bill's breadth of experience includes a very diverse set of aquatic commissions encompassing indoor and outdoor pools, spas and water features ranging from new swimming pools and aquatic complexes for municipal clients and communities to high-rise, residential apartment, roof top and plaza level pools.
