Re: RFQ 2024-005: On-Call Facility MEP/FP Consulting Engineering Services

Qualifications were solicited for mechanical, electrical, plumbing, and fire protection engineering firms to provide services for the Town on an as-needed basis for a 5-year term (through December 31, 2029). One submittal was received, from H.F. Lenz Engineering.

H.F. Lenz has extensive experience in the field of facilities engineering and has worked on a range of projects for commercial and governmental properties. They are very well-qualified for the type of services the town requires. It is our recommendation that they be selected as the town's MEP/FP consulting engineer.

If you have any questions please let me know.

Respectfully,

Blake Leonard - DPW
